Judge Bunn held that in cases like the one under consideration where the attachment was issued to satisfy a judgment the law did not apply.

Two Lads Surprised In the Act of Stealing Chickens Early This Morning—One Goes To the Hospital With a Bullet In His Leg—The Other to Jail.

He followed them and, meeting Officer Hofer, the two saw the thieves, who are about 19 years of age, enter the yard of William Landers, corner of Thirty-first and Davis streets. A little later they were seen coming out of the chicken house.

MINERAL MAKES THEM DANCE

People Around Grantsburg Can Tell Where Iron Lays.

Grantsburg, Wis., Feb. 7.—When some six weeks ago Burnett county obtained new notoriety as the scene of peculiar methods of locating minerals, the reading public put the story down as a fake. The Lutheran minister, who came all the way from Omaha, at the expense of a few farmers who wanted to know whether they owned minerals or not, was called a fakir by the public. The public has not forgotten that this minister with a wire located hidden minerals and told the farmers where to dig. He located three places to dig shafts.

Those who scoffed at the theory of finding minerals in this way have little to say when they stand by a shaft sunk at one of these places and see actual copper ore brought to the surface. The shaft is 10 by 12 feet and nine feet from the top of the ground, rock was struck that showed copper. Blasting has been followed since in the shaft and every shot has shown more copper. At sixteen feet from the surface clear results were found running clear across the shaft and those who understand the business say that the find is very rich.

The Rev. Fredin, who located the mines, has had the peculiar sensations he experiences in his divinations well advertised. The magnetic thrills that tell him he is near mineral, have been commented upon nearly around the globe and he was supposed to be the only man in the world to have such power. Now Burnett county has dozens like him.

They are not all affected alike, but when they come near the shaft where copper has been found they experience remarkable sensations if they hold wire in their hands. They can follow the directions of the veins by this sensation, feeling the magnetic thrills only when in certain places. Those who can get no extraordinary experiences with the wire alone usually feel the electric current when they touch some one in whom this divining power is seen to work.

Several men who have experienced these thrills since the mining excitement broke out have sought to hide their power and are ashamed to think that such things affect them, while others are proud of their attacks and show off at all times. The proud ones are naturally suspected of shamming. One man was coaxed to try a wire on the mine and was so shocked that he had to be carried home helpless.

LOCAL CHURCH NEWS.

The pastor of the Congregational church spoke yesterday morning on, Joy in the Lord, from the text, "Rejoice Always." Paul thought of Christianity as an inner spirit which produced an outward life. We may expect to see in a man's words and deeds visible signs of the spirit which is in his inner heart. Paul not only spoke of the religion of Jesus as something which entered a man's thoughts, but also as something which produced certain effects in his daily life. One of these visible things which may be expected to work out from a Christian's heart is joy. It must follow the inner experience as the tree results from the seed.

There must be joy in Christianity or the meaning goes out of all Christian thought. The idea of the fatherhood of God, falls to the ground, unless religion be the happiest thing in the world. For religion is God's gift and a true father will give only what will make his son's life joyful. If Christianity is not joy, then missions, which seek to give more of it to men are not a blessing. It is true that Christ's religion is to be supreme at some time then there must be fullness of joy in it or human history will culminate not in happiness but in disaster. Christ's religion was a happiness to Paul. Our happiest moments moments have not been our idle or selfish ones but our most unselfish and Christian ones. If God is the Christian man's father then God's world is his inheritance. Poetry, music, art, laughter, social enjoyment all belong to the Christian. If there were no evil in the world every pleasure would be a Christian pleasure. But there is evil. Many of life's wholesome pleasures are stained by abuse and over indulgence. Then it becomes the joy of the Christian life to leave those things which injure men; for truth's sake and for the kingdom's sake, not to deny ourselves, but to honor ourselves by refusing to indulge in those pleasures which take our brothers' lives. Some day these misused pleasures may be reclaimed, then they shall be ours. Self indulgence is not happiness. The most joyous life is the life which serves.

Now, if there is so much joy in religion, how is it that so many have come to think of it not as a happiness but a thing of gloom?

In part it is caused by the negative habit of mind. We may think of a physician's profession either as one which thrives, or other men's misfortunes, or as a noble art which exists to keep them out of their misfortunes. Too often we look on the negative side when the positive is just as true. Children do inherit bad qualities from their parents' sins, but they also inherit good qualities from their parents' virtues. If death is a parting, it suggests also immortality. We have made Christ a great sufferer, as indeed He was; but a sufferer for redemption. The cross is not a defeat, but a triumph. We have often thought too much of those three hours of anguish on the cross and too little of the three years of love and ministry or the eternal years of Christ's reign. There are certain foolish, sinful things which the Christian must leave, but there is a multitude of new and joyous things which he can do. We must train our minds to think of the positive, sublime, joyous things of our religion. We sometimes, also, miss the joys of religion by not going deeply enough into it. If a man's thought of religion be no deeper than merely going to church and doing a few formal things of that kind it will be a weary business for him. But if he get deeper and learn what it is to be near to God, to commune with Him and to live a true and Christian life then the joy of religion will be clear and deep for him. The first efforts of a child to play the piano are awkward and not particularly satisfying but a continual practice will make music one day become a joy. If we must turn elsewhere for our pleasures, if we do not feel the joy of our religion let us ask ourselves how deeply we have gone into Christianity.

At the evening service Mr. Denison spoke of the Christian doctrine that God has made it possible for a man to become better than the is. Things are not fixed, they do not have to remain as they are but may be improved. The annual home gathering of the Congregational church will be held on Thursday the 10th.

Special music was rendered yesterday. A quartet composed of Mrs. Minnie Meekles, Mrs. W. S. Jeffries, Mrs. S. B. Lewis and Miss Francis Edwards sang "Oh Jesus Thou Art Standing" in the morning, and won warm praise. In the evening Ralph Buell played a violin solo.

LIFE OF CHRIST

Rev. W. A. Hall's Theme at the Court Street M. E. Church Yesterday.

Rev. W. A. Hall, of Court Street M. E. church spoke on "The Life of Christ" in part, as follows:

To Pharisees in temple court Christ refused a single sign. For the common people he wrought many. And we are told that "many believed in his name, beholding his signs which he did." A sign belief. Luther calls it a meek belief. A faith that is like a fire of kindlings only. Bright and hot for a moment then dead out. A great revival is in a church. Scores are crowding the altars. Everybody believes. With most it is a sign belief. It will die down sure. What we need is a faith that "Endures as seeing things invisible." Not a faith that is foam; but a faith that is rock abid-

ing. "But Jesus did not trust himself to them for he knew all men." Christ knows man universal. His words consequently when pondered impress all men everywhere and evermore. But the word says he knew all men. The darkest depths of every man is to him full day. To us men are locked up, covered. To him everything to us hidden was in a show case. He needed no information. He himself knew what was in man. Because he knew that their faith was a mere sign belief he trusted not himself to them. Christ believed in common people but he did not believe in common faith. At the passover there was a crowd in Jerusalem. Crowd in temple court. Crowd in streets and a crowd overflowing city walls and growing on hill and in valley without. When daylight went out in gloom and the hush still ed everything except perhaps the spring winds which swept over the houses and through the streets, when all the clamor resultant on the confusion of small quarters and unwonted arrangements had died; then in a single room in Jerusalem there was a light and about it a little group. They stand out before us in the still flare of a lamp you or I would throw out doors, yet a good light as those times went. One is Jesus. About him two or three or four who are to become his apostles. He teaches. They listen. But some one enters. They all look at him. His face is intelligent and kindly. His raiment speaks rank and riches. Who is it? Had he come by day people would have pointed to him "see that man?" "Yes." "Well that is Nicodemus." "Is that so? I have often heard of him up there in Bethsaida." The bible points one finger of reproach at him evermore "The same came to Jesus by night." Mr. Hall dwelt somewhat on his reasons and described his coming. As he comes into the room he looks about quickly and shyly to see if anyone who knows him is there. He pronouncedly for Christ. Die if need be but be loyal. Yes and be utterly unashamed of Jesus. Let sinful people—people of the night, who walk in darkness, hang their heads; but children of the day should have daylight methods. Let us be proud of our Jesus. Nicodemus stands obsequious. "Rabbi, we know that thou art a teacher sent from God; for no man can do these things that thou doest, except God be with him." Jesus is humble. He refers not to the signs; He speaks not of His power, yet He is never deflected from absolute right and utter truth. He says, "verily, verily I say unto you, except a man be born from above he cannot see the kingdom of God; unless the Icander goes into the kingdom of Brazil, he cannot see it; he cannot even guess it." So except through the spirit, a soul comes into the kingdom of the spiritual, it cannot see things spiritual. It is through physical life to physical light, and it is through spiritual life to spiritual night. Spiritual things are spiritually discerned.

Mr. Hall in speaking of everlasting life, spoke of the death of James Garfield. Four months of trial had passed. At last all was firmly established. Garfield had his hand firmly on the tiller. The ship felt and owned his power. He was full of hopes that were bright and plans that were large. Then the assassin did his awful work, and now a dreary desert waste of suffering and then death. What made him feel so buoyant at first? Life. Why did the clouds gather? Life was diminished. Death stared him in the face. Christ brought ever-growing and everlasting life. The life of violet and gladiolus ends. Death waits at the end of the course for every runner, but he that believeth on the Son of God hath, and shall have if he continues to believe, everlasting life.

A LAST WISH.

Rev. H. C. Kempton's Address to the Congregation at the Baptist Church.

Rev. A. C. Kempton of the Baptist church had large congregations to hear him yesterday. In the morning, his subject was, "A Last Wish." His text was in Luke, 22:19.

When in Jerusalem, I visited the room, which tradition says was the one where Jesus and his disciples took the last supper, where he expressed his last wish, "This do in remembrance of me." We ought to keep in remembrance, our friends who are taken from us. It was the desire of Christ to live in the hearts of his people, that he expressed this wish. There was no time in the Savior's life that he showed his humility, as he did at this moment. He wished to be remembered by all his people. He could endure the cross if he could be remembered by his disciples.

Our Savior has given us the Supper that we might remember him, and it is a beautiful thing for the church to meet at the beginning of the month and recall what he has done for it. He needs no earthly monument, for his name is written everywhere, but he desires that we remember him as our dearest friend.

This day the name of Jesus will be remembered in many places and it matters not where it may be if it is in love. Not because of our profession, our creed or condition of life but because we love the dear Lord.

How sad it is that we ever forget the dear Master. How sad that we allow pleasures and other things to make us forget the dear Lord and wander away into sin.

Notice as a closing thought that in

this remembrance of Christ there is strength and comfort. The bread and wine do not give us the strength, but the very remembrance of the dear Lord will help us in all the trials of life and we shall be more able to live for him as the days of trial come.

The Y. P. S. O. E. was led by Walter Clark. The subject was "The Christian's Confidence."

For his subject at the Peoples Gospel service, Pastor Kempton took for his subject "Him That Cometh." His text was in John 6:37. "Him that cometh unto me I will in nowise cast out."

The great crowds of people who were following Jesus in his Galilean ministry, were not following him aright.

How shall we follow him? First, there should be a personal coming. It is not simply being a moral man, but we must come personally to the dear Saviour.

Suppose a man from the South Sea Islands should bring the shells that are used for money there to this city, could he buy things with them? No, they are not money. Neither is morality that which is required. It is good, but not a personal coming to Christ. Neither is it coming with gifts, but a personal coming. A giving of all we have and are.

Second, it is a coming to a person. Not to a church, or a book, or a priest, or a certain form, or even a historic Christ, or to a universal Christ or to a personal Christ. The Christ of the M. T. The loving Jesus who died for you to save you from your sins. Jesus is your only hope. "There is none other name." It makes no difference how bad you are. Jesus will save you.

How shall we come? Not by knowledge. A knowledge of a railroad train won't take you to Chicago. You may know all things. If you don't step on the train you will get left behind. It is not by feeling. You must step out upon the blessed promises of Christ.

Now look at the promise given with this "I will in nowise cast out." When we take shelter in the arms of Christ he will not cast us. Will you not take that step now? You may not be able to see the fathers face, but you can hear his voice. Come and do what you know you ought to do; give yourselves to Christ.

WORLD TO DISSOLVE BEFORE MAY 15TH

NO DOUBT THAT THE END WILL COME.

Putting Janesville Policemen in Uniforms Would Unsettle the Universe—Floods Followed Officer McGinley's Appearance So Attired Some Year's Ago, But the Edict Is Issued

ABSOLUTELY no doubt exists but what the world will come to an end before May 15, in the year of our Lord, 1898, for on that day, if the world still exists, Janesville policemen must put on uniforms.

Can you realize it? "Good joke?" you say? Not at all.

The Board of Fire and Police commissioners have so decreed, and that settles it. Policemen must wear blue.

And the hickory. Ah, me. The good old days are gone.

The hickory will no longer be the insignia of the office of a policeman. Hereafter, as it was before Janesville had a policeman, it—the kind the policeman

OFFICER PATRICK M'GINLEY.

[The only uniformed policeman that Janesville ever saw, as he looked while wearing the blue, many, many years ago.]

lice carried, at least—will be only the insignia of a severe attack of rheumatism or some other "gameness" of the joints.

Many years ago Janesville had a uniformed policeman, but then too flood came, and the river overflowed its banks. There was dire distress in the town, so Officer Patrick McGinley, the first uniformed policeman that Janesville ever saw, took off his uniform, and donned again, the hickory of history.

Can't Laugh at Us Then.

But it has come to pass.

No longer can Edgerton people point at their stalwart marshal with the helmet of blue and say "Hogan in all his glory." etc.

Never again can Monroe people say: "Look at our handsome uniformed policemen. Yes, Mr. Appleby is fine looking, but ugly, that homely hickory," etc.

Madison people cannot say, "Our policemen are uniformed, while yours, well they look nice, but Brown would harmonize with blue," etc.

No sir.

Janesville policemen have been up-to-date in all respects but one—they handicapped nature by wearing hickories, but when they put on the uniforms, well then they'll be the finest—the only "finest" in the state.

All hail the fire and police commission, and cuddle the members well—for if they can get the police into uniforms, they can move the earth with a two foot lever. This time they have made a move in the right direction.

There are many good reasons why the police should be uniformed, and none why they should not. The rule is a good one, and the commission should see that it is carried out—if the universe is not dissolved on or before May 15.

CAN FIX NO DATE FOR PEACE.

Premier Sagasta Admits That the End of the War in Cuba Is Not in Sight—Feeling Against America Is Growing in Madrid.

London, Feb. 7.—The Madrid correspondent of the Standard says:

"Senor Sagasta's response to the official note presented Saturday by General Woodford, the United States minister, complains of filibustering expeditions, and declares that Spain cannot entertain the suggestion for fixing a date for her completion of the pacification of Cuba.

"Pessimist impressions are now current regarding the relations between Spain and the United States, and have depressed the Madrid and Barcelona bourses.

"Public feeling among all classes is strong against America."

SPAIN IS UNEASY.

Anxiety Over the Relations With the United States.

Madrid, Feb. 7.—There is an indication of considerable uneasiness over the relations with the United States. El Correo, the organ of the administration, says: "The movements of the American fleet in the Mediterranean sea and Atlantic ocean, although explained by tactical reasons as peaceful, are really suspicious, and tend to provoke distrust."

The Furor and Terror, torpedo boats, left Cartagena Sunday for Cadiz, where they will await orders. The warships which are to be sent to Cuba will await orders at the Canary Islands.

Fruit Scare Is Relieved.

London, Feb. 7.—The Berlin correspondent of the Standard says. "The declaration of Mr. Wilson, the American Secretary of Agriculture, regarding fruit diseases has relieved the minds of commercial men here who feared reprisals for the exclusion of American fruit. On the other hand, the Hamburger Nachrichten, the organ of the Agrarian league, is still dissatisfied, and declares that American fruits imported by way of Holland and Belgium ought to be covered by demanding certificates of origin. It regrets that all American fruit, whether infected or not, was not prohibited."

Republican Members Agree.

Washington, Feb. 7.—With one exception, the twelve republican members of the committee on banking and currency have practically agreed to report a measure embodying merely the three principal financial recommendations of the President's message, provided an agreement on a broader measure cannot be reached. It was voted unanimously that in any measure to be reported by the committee no legislation in reference to silver coinage should be contemplated. By a vote of 6 to 5 it was declared that the greenbacks should be retired.

Arrest Alleged Lynchers.

Guthrie, Ok., Feb. 7.—Arrests have been made in the Pottawatomie and Seminole country of men said to be implicated in the burning of the two Seminole Indians. Marshal Thompson and six of his deputies, accompanied by strong posses, have been scouring the country the last three days, and so far twelve arrests have been made, with 110 more warrants to serve. Three of the men under arrest are prominent Seminole citizens. Marshal Thompson fears trouble when the prisoners are arraigned before the United States commissioners.

Denies the Claim of France.

London, Feb. 7.—The Times, referring to the claim of France to an outlet on the navigable part of the Niger for her Soudan and Dahomey establishments, says: "France has no right whatever to such an outlet, and a pretension to claim it at Great Britain's expense is a proposal which could only be accepted on the hypothesis that Great Britain had lost her power to defend her legitimate possessions."

Ex-Senator D. C. Hagie Dead.

Springfield, Ill., Feb. 7.—Ex-Senator D. C. Hagie, first assistant attorney general, died Sunday morning at his home in Florida, Clay county, aged 59 years. He was taken ill here five weeks ago with pleurisy. He returned a week later and endeavored to attend to his duties, but was forced to give them up and return home.

Butte, Mont., Feb. 7.—Information received from Lethbridge, on the Canadian boundary, is to the effect that great excitement has been caused there by the orders received from the dominion government that every man of the mounted police hold himself in readiness to proceed to the Yukon at a moment's notice for temporary duty.

Sheriff Brockliss Indicted.

Carson, Nev., Feb. 7.—Sheriff Brockliss of Douglas county, where the lynching of Adam Ober recently took place, has been indicted for willful neglect of duty in not taking steps to prevent the illegal execution. TO LABOR REFORMERS.

Call Issued for Convention to Be Held at St. Louis in May.

St. Louis, Mo., Feb. 7.—A call for the "first regular annual united labor and labor reform convention," to be held in St. Louis on Monday, May 2, 1898, has been issued.

The convention was called for the following purposes:

1. To consider and adopt measures to secure closer union between all advocates of labor reform.

2. To adopt an efficient system of resisting the encroachment of the judiciary upon the liberties of our people and to abolish government by injunction.

3. To unite all our efforts in support of every movement for the betterment of industrial conditions not inconsistent with each other.

4. To consider the political situation in relation to interests of the producers, and to take any necessary action thereon.

5. To establish closer and more sympathetic relations between the supporters of isolated attempts at self-help by co-operative colonies and industries.

6. To impress upon the American people the pre-eminent importance of the system of direct legislation (including the initiative, referendum, imperative mandate and proportional representation) as the only means of restoring the liberties of the people, and as the only issue whereby all reform elements can be cemented into hearty political union without compromise of principles.

7. The basis of representation shall be one delegate from each bona fide local organization in actual existence which has for one of its fundamental objects the promotion of industrial and social reform.

TEST FOR IMMIGRANTS.

Corliss Objects to Having Education the Basis of Admission.

Washington, Feb. 7.—Representative Corliss of Michigan, whose immigration measure was incorporated in the legislation which passed the last congress and was vetoed, has prepared a substitute to the Lodge immigration bill, which he will offer as soon as the immigration debate is opened. Concerning the substitute Mr. Corliss says: "I do not approve of the narrow educational test embraced in the Lodge bill. We cannot afford in this country to base our standard of humanity upon the educational test either in the application of our laws to immigration, civil service or citizenship.

"The test that should be applied to every human being seeking a home upon American soil should be: Does the human being possess a character and mind sufficiently honorable and intelligent to become amalgamated with the spirit of American institutions and American manhood?"

Schaefer the Billiard Champion.

New York, Feb. 7.—Slosson lost his recently won title of billiard champion Saturday night at Madison Square Garden, by only four points. He had 596 points when Schaefer reached his 600. Schaefer led during the early innings, but Slosson passed him about midway and was well in advance until almost the end, when Schaefer came up with a run of seventy-six. The latter ran out with twenty-four. There were few high runs and eighty-one innings were required. As was the case in the recent game with Ives in Chicago, Schaefer won although his average was lower than that of his opponent. A challenge from Ives was received by the winner.

Big Rush from Dawson.

Juneau, Alaska, Feb. 1.—By steamer City of Seattle, Victoria, Feb. 7.—A stampede from Dawson City is imminent. The news was brought out by a party of about a dozen men who reached Skaguay Jan. 28, several of whom had reached there by a small steamer the evening of the same day. Among them were George McKenna of Douglas Island, who had been in the Yukon for two years. He states that a number of very rich new strikes have been made. This is the very latest from the Klondike, as four men in the party left Dawson as late as Dec. 28.

The Hermitage, Madrid, Uffizi, Pitti Louvre, Vatican, National of London, National of Berlin, Belvedere and other celebrated European galleries have placed their greatest and rarest treasures at our disposal that they might be engraved for this superb work. "FIRST GLANCE AT THE PICTURES BROUGHT TRUTH TO MY EYES," says one. "I cleared \$150 first week's work with the book," says another. "Some high grade man or woman should secure the agency here at once," says every editor. "as \$500 can soon be made taking orders for it." Nearly \$10,000 expended on new plates for edition coming from press. Nebraska Town Is on Fire.

Lincoln, Neb., Feb. 7.—The Town of Exeter, forty-five miles west of Lincoln on the Burlington, is threatened with almost total destruction by a fire which started shortly before midnight. Exeter has nearly 1,000 inhabitants, but has no fire-fighting apparatus. A special from there says the west side of Main street has already been swept nearly clear, seven business buildings being burned. W. H. Taylor's large general store and Wallace & Co.'s bank are sure to go. A bucket brigade is the only means of fighting the fire.

Hotel Burns at Aiken, S. C.

Aiken, S. C., Feb. 7.—The Highland Park hotel at this place was destroyed by fire early Sunday morning. The flames started somewhere in the laundry room. The loss is \$140,000, with \$98,000 insurance. One hundred and sixty-eight guests were stopping in the building, but they had no trouble in getting away with their baggage. The Highland Park hotel was one of the best known of the southern winter resorts and was improved to the extent of \$60,000 this season.

Occasion for Fear.

"I'm afraid we'll wake up some morning and find that young, smooth-talking fellow has eloped with our Sallie," said the old lady, with a thoughtful shake of the head.

"I'm not," returned the old gentleman. "The only thing I'm afraid of is that we'll keep on waking up every morning and finding that he hasn't eloped with her; and it looks like it was her last chance, too."

It sometimes makes a difference whether one is paying the bills as to what one fears.—Chicago Post.

An Excellent Substitute.

Mrs. Nogrub—Kin yew bring me a cord of wood to-morrow, Mister Jones, an' pile it in the yard?

Farmer Jones—Sartinly. But I thought you burnt nothin' but coal?
Mrs. Nogrub—I don't; but my dog died yesterday, an' I've got ter hev somethin' ter scare the tramps away.—Judge.

A Home Thrust.

"No," said the rich old bachelor, "I never could find time to marry."

"Well," replied the young woman with the sharp tongue, "I am not surprised to hear you say so. It certainly would have taken a good while to persuade any girl to have you."—Chicago Daily News.

Mitigating Woe.

He—Can't I do something to dry up those tears?

She—You might dry them with a piece of silk.

"Piece of silk?"

"Yes, piece of silk. 22 yards, double breadth, with all the trimmings."—Tammany Times.

Enlightening Him.

"I wonder what that young woman meant by alluding to me as 'property poor,'" said Willie Washington.

"Perhaps," replied Miss Cayenne, "she overheard me when I told a friend that you were self-possessed."—Washington Star.

Haden't One.

"I don't suppose this business depression affects you tramps much," said the philanthropist.

"Yes it does," retorted the tramp. "The quality of the food we get these days is somethin' awful."—Harlem Life.

GIVES UP \$15,000

FOR HER HUSBAND

MRS. ZADER PREFERS HELP-MEET TO CASH.

Husband's Will Left Her \$15,000 On the Condition That She Should Remain Single—Children Will Now Get Her Portion of the Estate.

Rather than remain single and enjoy the income of a \$15,000 estate, Mrs. Clarissa Zader, formerly of this city, and now of Pomona, Cal., married and forfeited all rights to the snug left her by husband, the late Henry Zader.

From Pomona, Cal., Mrs. Zader writes that she has "met the man of her choice" and that she is now Mrs. Clarissa Olds.

The marriage of Mrs. Zader recalls the will of her late husband. For a number of years Mr. and Mrs. Henry Zader resided in this city near the corner of Milton avenue and Hyatt street. They were held in the highest esteem by all. In September, 1895, Zader was taken dangerously ill and on the twenty-fifth of the month he died.

Besides a widow, he left four children, William H. Zader of this city, Wilbur L. Zader of California, Mrs. Elizabeth Hield of California, and Mrs. Emma Z. Sykes of Mason City, Iowa. In his will he provided each of his children with a snug fortune, that they might use as they saw fit.

To the widow he left the income of an estate valued at about \$15,000 with the understanding that she should have the same during her natural life but that at any time should she again marry she would forfeit all rights and the money would be equally divided between the four children.

Tells of Her Marriage.

On Dec. 15, 1896, Sylvester Morgan, who resides at No. 6 Milwaukee avenue, was appointed trustee of the estate giving bonds in the sum of \$10,000. As soon as Mr. Morgan was appointed trustee, Mrs. Zader packed up a few household goods and moved to Pomona. She had resided there but a few weeks when she wrote home letters which tended to show that she was again in love. Mr. Morgan then wrote Mrs. Zader a lengthy letter fully explaining to her the provision of the will. Last week a letter reached Mr. Morgan signed by Mrs. Clarissa Olds, and in which she stated that she has again taken unto herself a husband, and that in so doing she fully realized the fact that she forfeited all claims to the \$15,000.

"I shall pay to the now Mrs. Olds the interest on the estate up to the time of her marriage," said Mr. Morgan yesterday, "and just as soon as I receive from California a certified copy of the marriage certificate, I will pay over to the four children their mother's share, as the will provided."

Mr. Zeigler hands in his resignation only as a move to better himself. BAR SLOT MACHINES

UNDER THE LAWS

JANESVILLE PEOPLE MUST NOT USE THEM.

Contrivances That Were Recently Suppressed in Chicago Are Sent to This City—Police Will Prosecute If They Are Not Taken Away—City Ordinance Covers Them.

Slot machines cannot be run in this city. The police this morning declared war on the local saloon and hotel keepers who have allowed such gambling devices to thrive in their places of business.

In case the machines are not removed at once arrests will follow and the violators of the city ordinance will be brought before the court. This move on the part of the police is the result of the introduction of late of three slot machines that resemble in appearance a small sized folding bed.

Samuel Yeager, of Chicago, accompanied the machines and set them up. They were a good thing from the start—for the owners. Young men, old men, and boys whose ages ranged from eighteen to twenty-one years, played their nickels at a rate that even surprised the barkeepers. Each machine contained five slot holes in which a nickel could be placed, each hole bearing a different cent or which paid all the way from ten cents to \$1.00—if you were lucky.

Ordinances Cover It.

One downward pull of a lever sent the wheel around and then in the space of about ten seconds time you would know the outcome of your investment.

"Just a month ago those very machines were ordered out of Chicago by Chief Kipley," said a local officer this morning, "and seeing they could no longer thrive in Chicago they have been sent to the small surrounding towns."

Chief of Police Hogan says there is a strict city ordinance against the operating of gambling devices of this kind and it is his duty to see that it is not violated.

City Attorney McElroy stated this afternoon that there was a clause in the city ordinance covering slot machines that are operated as a game of chance and that the penalty was not more than \$50 nor less than one dollar.

Mr. Yeager who set the machines up in this city stated this morning that he thought there was no state law that barred these machines from the local field. "There must be a lot of lucky fellows in this town," said Mr. Yeager, "for the machines so far, although having been played heavily, have no more than paid expenses."

A BIG TRADE ON SATURDAY

The Janesville Merchants All Enjoyed a Rush of Business.

Saturday was a busy day for the local merchants. The roads, during the past two weeks, have been almost impassable, but were in such a condition Saturday morning as to allow the passing of teams, and farmers by the hundreds took advantage of the fact.

"We had the best day's business that we have enjoyed in two weeks," said a local merchant Saturday evening, "and from what I can hear I think that the majority of merchants feel the same way."

PAID OUT \$14,000

FOR COUNTY LEAF

HEAVY PURCHASES WERE MADE HERE.

Ohio Firm Took In Eleven Carloads, and Will Probably Return Later On to Buy Another Lot—Much Cash Put in Circulation As the Result.

Fourteen thousand dollars in cash was paid to Rock county tobacco growers, Friday and Saturday by the Cincinnati and West Alexandria Ohio tobacco buying firms of Block, Black & Sauer.

On Friday, close to \$6000 was paid out, in sums ranging on an average from \$350 to \$500.

The members of the firm left yesterday afternoon for Cincinnati well satisfied with their visit to Janesville. The tobacco that this firm bought in this section comprising eleven car loads has all been shipped to their large warehouse at West Alexandria, where it will be placed in storage for assortment.

"We have no reason to complain of our visit to Janesville," said a member of the firm yesterday, "as one may judge of the amount of leaf that we received here during the latter part of the week. This tobacco was bought several weeks ago, but it was not paid for until delivered to us at the St. Paul freight house in this city last week which accounts for the large number of teams in the city Friday and Saturday."

To Buy More Yet

"When we came to Janesville we thought that about \$10,000 would be sufficient to pay for all tobacco that our agents had contracted for, but we found that when we came to settle that we needed a little more."

This well known firm expects to return to Janesville before the passing of many weeks and in the mean time they will leave the business here in the hands of local agents.

A deal for the sale of 600 cases of Wisconsin is now being consummated by this firm and in case the deal is closed at once it will mean their early return to this section for more leaf.

Local dealers do not seem pleased at the invasion made by the Ohio buyers.

"We would not care so much about their buying here," said a local buyer this morning, "but when the papers herald it to all the farmers it gets them all worked up and they want about three prices for their goods."

THE WORLD'S NEWS OF YESTERDAY.

Washington, Feb. 7.—It is probable that the program of the house, which has been confined almost exclusively this session to the consideration of appropriation bills, will be varied this week with the consideration of a contested election case. It is the purpose of the house to keep the appropriation bills to the front in order to obtain a final early adjournment, or, as the alternative, throw the responsibility for delay on the senate. But after the fortification bill is disposed of only one other appropriation bill is on the calendar for the present, the military academy, and it should not consume more than a few hours.

Program in the Senate.
Washington, Feb. 7.—The attention of the senate this week will in all probability be divided between the Hawaiian annexation treaty, appropriation bills and the right of H. W. Corbett to a seat in the senate from Oregon. The treaty will probably occupy the greater share of attention, but after that time the committee on appropriations will claim the time of the senate for the Indian appropriation bill, which it is expected will be reported early in the week. This bill will provoke considerable debate, and by the time it is disposed of the committee on appropriations hope to have the fortifications bill before the senate.

SILVER NOT LEGAL TENDER.

Issues Joined in the Lansing, (Mich.)

Suit to Test Bland-Allison Act.

Lansing, Mich., Feb. 7.—In his answer to the suit brought to compel him to accept \$64 silver dollars in settlement of a mortgage for \$364, Chairman Baker, of the Democratic state committee, contends that under the power to coin money and regulate the value thereof Congress has no more power, as far as pre-existing contracts for the payment of money are concerned, to diminish or increase the number of grains of pure gold or pure silver in the dollar in which a contract has been lawfully expressed than it has as to pre-existing contracts to change the number of grains in an ounce or the number of inches in a foot, or to change any other standard of weights or measure. Nor has Congress where a contract, at the time it was made, was only lawfully payable in dollars containing a certain number of grains of one of the precious metals any power to change the dollar of the contract to a dollar of the other metal of lesser or greater value than the former.

He furthermore insists that inasmuch as the Bland-Allison act did not open the mints to the unlimited coinage of silver on private account on equality with gold, Congress thereby treated silver as a depreciated or debased metal, and upon the facts set forth in the answer in regard to the depreciation in the gold price of silver at the time said act was passed, the provision making silver dollars coined from silver purchased under said act a legal tender without limit as to amount is unconstitutional. Under the constitution and the valid acts of Congress it is claimed that silver dollars are only a legal tender for payments not exceeding \$10.

Coal Miners Secede.

Morgantown, W. Va., Feb. 7.—The movement among the coal miners of West Virginia to separate themselves from the United Mine Workers' association, and form an independent organization is gaining ground rapidly. More than 3,000 miners and eighty operators have joined the independent movement up to date, and these are bringing every influence to bear upon the miners and operators who are still in the older organization to have them come in the new. The Kanawha and New River fields have taken the lead in the fight against the United Mine Workers.

Greek Peasants Fight Turks.

Athens, Feb. 7.—It is reported that the Turkish troops have captured and burned the villages of Mosakion and Graltiza, in the neutral zone of Thessaly. The villagers made a stubborn resistance and lost heavily. One hundred and twenty of them were captured by the Turks. The rest fled to the mountains for refuge. The Turks numbered 8,000. A panic prevails throughout the neutral zone.

Gov. Tanner Back Again.

Springfield, Ill., Feb. 7.—Governor and Mrs. Tanner and party returned Sunday from Hot Springs, Ark. The governor is greatly improved as a result of his visit to the health resort, and he says that the rheumatism has quite disappeared from his hand and wrist.

Good Rains in California.

San Francisco, Feb. 7.—Reports received here from all sections show general rain throughout the state. It will prove of great benefit and will save the farmers and fruit growers from the great loss which threatened dry seasons have occasioned.

Gladstone Goes to Church.

Cannes, Feb. 7.—Mr. Gladstone, accompanied by Mrs. Gladstone, drove to church Sunday and received communion. He was able to walk without assistance.

Whooping Cough is the most distressing malady, but its duration can be cut short by the use of One Minute Cough Cure which is also the best known remedy for croup and all lung and bronchial troubles. People's Drug Co.

ILLINOIS LEGISLATURE.

The Revenue Bill Likely to Occupy Attention All This Week.

Springfield, Ill., Feb. 7.—In the senate this week revenue reform will be resumed and the outcome is difficult to forecast. The house bill may be amended to such an extent that the framers of the bill will not be able to recognize it when it is sent back to them for concurrence. That it will be amended in many particulars and finally wind up in a joint conference committee is almost a certainty. This means that the extraordinary session will not adjourn sine die this week. The house bill will be read a second time on Tuesday, when amendments will be in order. It will be discussed on second reading for at least two days, and will hardly be sent over to the house for concurrence before Thursday. That body will undoubtedly refuse to concur in the amendments, so that the conference committee cannot get to work before Friday.

An effort will be made early in the week to get the racing and pool-selling bill out of committee into the house. There is very little probability, however, that any measure of this kind will be passed. Some time this week a joint republican caucus will be held to fix the date of final adjournment. It is possible that the date will be Friday of this week. The senate, however, now holds the key to the situation. All will depend on what it does with the revenue bill. Disagreement between the two houses, followed by a committee of conference, is conceded to be inevitable. The prevalent opinion is that the date of sine die adjournment will be no earlier than Feb. 18.

Grade-Crossing Accident.

Saginaw, Mich., Feb. 7.—Saturday afternoon a Michigan Central passenger train from Detroit ran down a sleigh containing a man and three women at the Sheridan avenue crossing. The man and two of the women were killed and the third woman badly injured. The dead: Thomas Stewart, groceryman of this city, aged 35; neck broken and skull crushed. Mrs. Mathias Mosner, aged 65; a widow residing near Frankenmuth, this county. Miss Barbara Mosner, aged 25, daughter of the widow; neck broken. Mrs. William Moncke, another daughter of Mrs. Mosner, who resides here, had her knee broken and suffered internal injuries. There was no gate or flagman at the crossing.

Blue Laws Put in Force.

Toledo, O., Feb. 7.—Toledo had its first puritan observance of Sunday in many years. Every sort of business save eating, street car riding and preaching, was absolutely suspended. Even the restaurants were forbidden to sell cigars, and not a drug store did more than the compounding of prescriptions. Milkmen were warned off the streets, and only a small number succeeded in serving their patrons. News stands were closed and newsboys stopped from selling the morning papers.

Overland Train Is Wrecked.

Tacoma, Wash., Feb. 7.—An east-bound overland passenger train on the Northern Pacific railroad was wrecked at 3 o'clock Sunday morning two miles east of Pasco, in eastern Washington. A sudden flood had washed away or weakened several bents of a trestle, causing the engine and forward cars to plunge into the ditch. Two men were killed and two others injured. All were tramps. No passengers were injured.

Five Hundred Men Need Jobs.

Omaha, Neb., Feb. 7.—More than 500 men were discharged from the Union Pacific shops and offices in Omaha last week, in accordance with the policy of the new company. Nearly as many more have been dismissed along the lines of the company. Several other dismissals are anticipated next week. All the general officers of the old company have been retained for the present.

Cruisers for Chinese Waters.

London, Feb. 7.—A dispatch from Hongkong says it is rumored there that the British cruiser Edgar is stowing all possible ammunition preparatory to going north. The cruiser Bonaventure has been ordered from Devonport for China, and the first class battle ship Barfleur has left Malta for Chinese waters.

Speech Greatly Offended Russia.

London, Feb. 7.—The Daily Chronicle says it believes that the recent speech of the chancellor of the exchequer, Sir Michael Hicks-Beach, at Swansea, when he said the government was determined even at the cost of war that the door of Chinese commerce should not be shut to Great Britain, greatly offended Russia.

On and after Monday, Feb. 7, the train will leave for Beloit, Rockford, Belvidere, and De Kalb, at 8:25 a. m. instead of 12:23 p. m. as at present, connecting at Rockford for Freeport, all points on Illinois Central railway, connecting at De Kalb for Clinton, Iowa, Cedar Rapids, Des Moines, Omaha, Denver, and all points in Iowa and Nebraska.

LABOR ARBITRATION BILL.

Serious Disagreement Between Gompers and Other Leaders.

Washington, Feb. 7.—The consideration of the labor arbitration bill by the house committee on labor will be resumed next Thursday. The bill gives every case of labor disagreement or strike an official status and the significance of public opinion. The proceedings so far have developed a wide difference of views between labor leaders, and Mr. Hynes, representing the federated railroad employees' organizations has taken issue with President Gompers of the American Federation of Labor, as to the respective obligations of employer and employee, and every railroad brotherhood apparently favors the pending measure, while some of the officers of the Federation of Labor want the bill to go further and claim that no arbitration system can be safely established that does more than give the arbitrators' opinion and then drop the case. The railroad men, it is stated, want the disputes to be the subject matter of legal arbitration, while the opponents of the bill, it is represented, want such regulations of disputes left to themselves. It is said, however, that President Gompers has taken no official action in making these representations.

Kansas After the Railroads.

Topeka, Kas., Feb. 7.—Gov. Leedy has prepared a railroad bill which gives the board of railway commissioners the power to make and enforce a schedule of rates on all the railways in Kansas. He will send the bill, together with an address, to the members of the legislature, asking them if they will support such a measure in a special session. If a majority of both houses reply in the affirmative a special session will be called for the first of March. The majority of members of the senate have pledged themselves to such a measure.

Our Fruits Popular in London.

London, Feb. 7.—Germany's action in excluding American "affected" fresh fruits and live plants and shrubs, and packages containing the same, is laughed at by the authorities here, who have to deal with the American fruit shipped to England. A representative of the Associated Press is informed by the board of agriculture that there never has been any complaint in this country against American fruit shipped to England.

Mingle Gives Up Hope.

Springfield, Ill., Feb. 7.—Next Friday James Mingle will be hanged in the Sangamon county jail here for the murder of Dollie Briscoe, the infant babe of Baby Briscoe, unless Gov. Tanner interferes with a stay of execution. The supreme court has refused to grant Mingle a writ of supersedeas. Sheriff Baxter has completed all arrangements for the execution, which will be between 10 a. m. and 2 p. m.

Total loans are \$663,859,800; specie, \$114,088,200; legal tender, \$104,150,300; net deposits, \$730,827,500, and circulation, \$14,392,400. Canada Profits by the Rush.

Ottawa, Ont., Feb. 7.—Gold Commissioner Fawcett has notified the dominion government of the forwarding by him from Dawson City of the sum of \$80,000 duty collected in that district by the Canadian officers. This makes \$195,000 received by the government from that place since the rush to the gold fields began.

Chile and Bolivia Agreed.

Valparaiso, Chile, Feb. 7.—It is stated that the Chilean government will accept the proposals of Vice-President Billinghurst of Peru, who is now in Santiago, negotiating for a settlement of the questions between Peru and Chile arising out of the holding of the provinces of Tacna and Arica.

Revolution in Costa Rica.

Washington, Feb. 7.—A telegram received at the state department today from San Jose, Costa Rica, announces that a revolution was inaugurated there yesterday.

Afraid of American Banks.

Rome, Feb. 7.—A government measure has been published authorizing the Bank of Naples to take charge of the savings of Italian emigrants in North and South America, with a view of securing them against the rapacity of the so-called "bankers" there.

Eugenie Not Seriously Ill.

Paris, Feb. 7.—The news of the serious ill health of former Empress Eugenie, who is detained at a Paris hotel en route for Cape Martin, is greatly exaggerated. She has been a victim of influenza.

Devastated by Earthquake.

Constantinople, Feb. 7.—Anatolia was visited by an earthquake Saturday, which, it is reported, caused widespread devastation.

COLD WEATHER A FACTOR.

Hardships of the Winter Make the Contest a Trying One Upon the Idle Men—Labor Leaders Promise Aid from Their Organizations.

Boston, Mass., Feb. 7.—The big cotton mill strike entered to-day upon its fourth week with the deadlock just as complete as ever. There has been a great deal of talk that it would not take much to break it, but the strikers received fresh encouragement Sunday from a meeting of labor leaders held in this city, and Samuel Gompers has announced his intention to take a hand in reviving the courage of the operatives. If the mill managers should open their gates on Feb. 14 and issue a call for their old help to return, as has been intimated as possible, it is believed by many in New Bedford that the strike would speedily be ended, though not without considerable turbulence. It is conceded now that the strikers made a mistake when they decided upon resistance in midwinter. While they do not doubt the justice of their resistance, every one, even most of the strikers, questions the wisdom of having made it at a time when it costs as much to keep warm as to furnish food.

At Sunday's meeting of labor leaders, representatives of all organizations in New England, were present, and a committee was appointed to arrange for a conference at an early date of representatives of all the textile unions in the country, with a view to organizing a system of aiding the New Bedford strikers.

Secretary Ross of the Mule Spinners' union believes that this movement will have a direct result in strengthening the position of the strikers, and that in a very short time they will be in a way to carry on the strike for an indefinite time.

RIGHTS OF JAPANESE.

The State Department Holds That They May Be Naturalized.

Washington, Feb. 7.—In view of the question that has been raised as to the correctness of the conclusion reached by the officials of the state department who have been engaged in the negotiations with the Japanese government as to the status of Japanese in Hawaii, after annexation is completed, further inquiry was made yesterday to ascertain the ground for the statement that the Japanese, unless there was legislation to the contrary by congress, would be entitled to the privileges of naturalization if they so desire and are otherwise able to meet the requirements of the law. The officials are reluctant to talk, but in substance their contention is that under the laws as they exist today, Japanese in the United States are entitled to naturalization.

INTENSE SUFFERING

From Dyspepsia and Stomach Trouble.

INSTANTLY RELIEVED AND PERMANENTLY CURED.

A New Discovery. But Not a Patent Medicine.

Dr. Redwell relates an interesting account of what he considers a remarkable cure of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets.

He says: The patient was a man who had suffered to my knowledge for years with dyspepsia. Everything he ate seemed to sour and create acid and gases in the stomach; he had pains like rheumatism in the back, shoulderblades and limbs, fullness and distress after eating, poor appetite and loss of flesh; the heart became affected, causing palpitation and sleeplessness at night.

I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a fifty cent package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediate relief was given and after he had used four boxes he was to all appearances fully cured.

There was no more acidity or sour watery risings, no bloating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid, healthy flesh.

Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores yet I consider them a most valuable addition to any physician's line of remedies, as they are perfectly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety, being harmless and containing nothing but vegetable and fruit essences, pure pepsin and Golden Seal.

Without any question they are the safest, most effective cure for indigestion, biliousness, constipation and all derangements of the stomach however slight or severe.

Stuart's Dyspepsia Tablets are sold by druggists everywhere at fifty cents for full sized package.

We have direct proof that peddlers of washing-powders say that the stuff they're selling is "made in the same factory" as Pearlina—and that buying from them will save going to, or ordering from, the grocery store. Do you want people "saved" that. You have these same washing-powders in stock. Possibly you are giving them out, whenever you can, in place of Pearlina. You are trying to push them into notice; they are trying to crowd you out. You think you are "making more money on them." But will it pay you, in the end?

SEPARATE BODICES.

They Are Still Worn and Appear in the Best Society.

Liberty silk, shirred velvet and silk and all diaphanous materials form theater bodices, which are usually made in the blouse style and belted in with a highly ornamented girdle of metal filigree or of kid embroidered with gold and jewels. Metallic and spangled trimmings are much

RECEPTION TOILET.

in vogue for evening wear, gold and silver threads being interwoven with silks to form a brocade pattern. Such fabrics are usually of pale colors or white.

Theaters and concert rooms are not the only places where the separate bodice is seen. It appears in a fashionable form at evening receptions where full dress is not required, at informal dancing parties and similar social gatherings. In light velvet or silk, prettily trimmed, it is eminently correct, and as it is economical and convenient the style will be retained with pleasure by women of moderate means. Two or three blouses of different design and color, with a change of plaisters, revers and jabots, afford a great variety of effect and are an excellent investment for persons who go out a great deal and have to make a good appearance on a small pecuniary outlay.

When the skirt and bodice are of the same material, the prevailing tone should be light or bright for evening wear. Old rose, deep turquoise blue or willow green, trimmed with black mousseline de soie in the form of plaisters or ruffles, is effective. A model just shown has a skirt of red velvet embroidered with jet, the red velvet blouse being partly covered by a bolero of jet and passementerie.

The illustration shows a costume of ruby velvet.

The skirt, which has a train, is adorned by motifs of black velvet and jet passementerie, which are placed at each side of the tablier, giving a redingote effect. The bodice is decorated with passementerie to match and has a double jabot of white embroidered gauze in front.

A plaiting of black gauze is placed under the passementerie and forms epaulets. The toque of ruby velvet is trimmed with black plumes and a jeweled buckle.

FASHION JOTTINGS.

Requirements of the Household, the Wardrobe and the Social Circle.

Lacquered furniture in white, pink or green is fashionable and is used by the best decorators, the shapes in which it appears being light and delicate. Articles of this description should never be placed in the same room with furniture of the dark, heavy, severe order, however, as the two

styles are entirely out of harmony. They may be used in conjunction with furniture of light weight and cheerful color or with bamboo and rattan pieces. Lacquered furniture is particularly appropriate for the bedroom of a young girl and combines most charmingly with flowered or delit chintz or delicate tints of china silk.

When one receives a box or parcel containing a gift, if the giver or any other person is present at the time, it is polite to open the parcel at once. If it contains bonbons or fruit, this should be offered to the company.

Veils are out of place for ceremonious occasions and are worn only for the street, being omitted even for formal calls. A young girl should not wear a veil at all unless she really requires it as a protection for the complexion.

The hair is worn high upon the head, the coil or puffs being placed upon the crown, so that it may receive the long

pins which secure the hat or bonnet in place. The sides are bouffant, the locks being waved all over the head, and a few short curls are allowed to fall upon the forehead.

The little four leaved clover charms are universally seen as lockets, medallions, brooches and pendants to bracelets. The clover is a genuine one, pressed, dried and placed under crystal.

The picture shows a hat composed of red velvet in the Henri III style. The crown is encircled by a torse of red satin, and on the left side is a combination bow made of red satin and black and white checked velvet. A white plume, held by a jeweled ornament, falls over the brim.

GOOD MANNERS.

The Easiest Way to Become a Bore in Polite Society.

Egotism is rather common than otherwise and is not a virtue. The statement of this fact alone will hardly be sufficient to reform the egotistically inclined, but when it is once generally realized that egotism—at least, the aggressive egotism which is always talking about "I" and "me" and "myself"—is extremely bad form and is not to be encountered in really

YOUNG GIRL'S GOWN.

well bred society there may be a change. While admitting cheerfully that we are of vital importance to ourselves it should be taken into consideration that there are not more than two or three other persons in the world to whom we are of any real importance at all or who feel a genuine and sympathetic interest in our affairs. This is a law of nature, and when we attempt to subvert any law of nature we make a failure of the attempt. Nobody wants to be a recognized bore, yet there is no surer way of becoming one than to always talk about oneself, one's feelings, plans, experiences, prospects and opinions. Personality in conversation is said to be the great failing of Americans. They can discuss nothing in the abstract, it is said by foreign sojourners among them, and the criticism is almost painfully true. In European society, impersonal talk is the rule, the discussion of personal topics being a breach of etiquette, except among small parties of intimates. Speaking of oneself is permitted only in response to direct interrogation, and then the subject is treated as briefly as possible. The polite world does not approve of an obtrusive prominence of the first person singular in conversation.

The out shows a pleasing gown for a girl of 16 years. It is of red cloth, an arrangement of black velvet bands forming the tablier and passing back over the hips. The blouse bodice, having a slashed basque, is trimmed with black velvet bands and has a revers of white satin, similarly adorned. The collar and belt are of black velvet. The toque of black velvet is trimmed with black plumes and a jeweled buckle.

WEDDING GARMENTS.

The Proper Attire For Relatives and Guests at the Marriage Ceremony.

Persons invited to a wedding are sometimes at a loss as to what is the proper attire for the occasion. If the wedding is in the evening and is followed by a full dress reception, as is sometimes the case, guests who are to attend the reception may ap-

RECEPTION GOWN.

pear at the ceremony in their evening dress without hat or bonnet. For an evening wedding evening dress is, of course, to be worn by men, whether they are guests at the reception or not. For a day wedding any elegant reception gown is the correct attire for women, with a small bonnet or picturesque hat and no wrap or jacket. An entirely black costume is to be

worn, guests who are in mourning laying aside their weeds for the occasion and wearing gray or some black gown not of mourning fabric or make and lightened by colored accessories. It is always proper to wear one's prettiest bib and tucker at a wedding within these limits, as one should do honor to the bride and groom and help to make the wedding bright and pleasant—as a wedding seldom is, by the way. Jewels are appropriate, but it should be remembered that diamonds are for evening rather than for daylight, and an extensive show of them is not considered the best form, except under artificial light. Men wear for a day wedding a Prince Albert coat and light trousers, with white or pearl gloves and a white, cream or pearl gray silk or satin scarf. A white lawn tie is for evening only.

The mother of the bride and the mother of the bridegroom should be dressed as elegantly as possible, wearing trained gowns of rich material—silk or velvet preferably—elaborately trimmed.

The picture shows a gown consisting of redingote of broche silk in old red and black, opening over a skirt of silver gray silk embroidered with steel. The redingote is edged with black ostrich plume and has a vest of plaited gray mousseline de soie. The belt and collar are of black velvet, the buttons of cut steel. A gray velvet toque trimmed with black plumes and paste ornaments accompanies the gown.

To Keep Neal Dow's Birthday.

New York, Feb. 7.—The W. C. T. U. has issued the following appeal: "The National W. C. T. U. earnestly asks the co-operation of the Christian church, the Christian Endeavor society, the Epworth league, the Baptist Young People's Social union, the National Temperance society, the Good Templars, the prohibition party, and all other temperance, religious and philanthropic societies, who are willing to help in the celebrating of the birthday of Gen. Neal Dow, March 20, for the purpose of strengthening the public sentiment that seeks the protection of the home by the prohibition of the liquor traffic in our own and every land."

Highwaymen on Wheel

A wheelman of West 46th Street, New York, who not long since attacked, robbed and left senseless by two highwaymen mounted on bicycles in Central Park. Repeated account of robberies by men mounted upon the swift revolving wheel have appeared in the papers in various parts of the country. In each instance, so far as learned, they have evaded the police. Those depredations of the health, diseases of the kidneys and bladder, will likewise in all likelihood escape arrest, and pursue their atrocious career unchecked, unless they are arrested in the outset by the potent but reversion of Hostetter's Stomach Bitters, the finest diuretic, as well as tonic, known to modern times. The genial preventive named is the best known medicinal safeguard not only against renal, but also rheumatic and dial disorders. It is at the start that disease is the more easily and completely overcome. The use of Bitters is followed by the happy results in cases of dyspepsia, constipation, liver complaint and nervousness.

SCIENCE IS EXACT

Munyon Explains Natural Laws and Gives a Warning.

"My discoveries," says Professor Munyon, "have established the fact that there are specific remedies for certain diseases which work with all the precision of natural laws. Where the chemical relations between medicines and diseases are known there can be no failure. Where such chemical relations are not known there can be nothing but guesswork. All the Munyon remedies are based upon scientific knowledge based upon systematic investigation and experiment."

Lawrence O. Ryan, eighty years of age, living at 2504 Fifteenth Avenue, Minneapolis, Minn., says: "I was troubled with Rheumatism for ten years. I tried numerous Remedies, but was unable to secure any relief. My case finally became so bad that I was unable to use my hands and feet. At this time I heard of Munyon's Rheumatism Cure, but had no faith whatever in it. I was induced, however, to buy a bottle, and, found after using half of this bottle, that I had obtained a cure at last. I am now able to walk around and see my children—something I had been unable to do for the past seven years."

Mr. Joseph Bollings, 516 Colombe Avenue, Milwaukee, Wis., says: "Professor Munyon's new system of treatment has proven in my case that it is a boon to suffering humanity. For ten years I was afflicted with malaria, dyspepsia, and rheumatism, which baffled the skill of doctors and different treatments. After taking Munyon's Remedies for one month I find that I am perfectly well."

Munyon has a separate specific for each disease. If in doubt, write Professor Munyon at Philadelphia, Pa., and obtain advice free.

White Nickel for Woolens...

Every housekeeper knows from experience that much depends upon the SOAP used whether the WOOLENS shrink or not. There are but few SOAPS made that will not shrink woolens. WHITE NICKEL HOME MADE SOAP is one of them. A very good send-off for WHITE NICKEL from a concern that knows all about washing woolens:

J. T. WRIGHT:

Dear Sir—We have been using about 1000 lbs. per month of your Soap and take great pleasure in saying that it works entirely satisfactory. ROCK RIVER WOOLEN MILLS.

WHITE NICKEL SOAP is made of pure tallow and cocoanut oil, nothing else. One bar will do the work of two of other Soaps. Ask your grocer for it.

WE are doing a truly remarkable business in the cloak department, selling as many garments each day as we did in the busy days of last November, when cloak business for the season was at its height.

We show more garments today than the average store displays at any time during a season, and they are all of this season's make, every one being correct.

When women see what splendid coats they can buy at half price and less, it is hard for them to resist. \$2.87 secures a choice from a lot of Ladies' and Misses' jackets. \$5.00 takes many that are really wonderful value, and at a little higher figure you can pick out the best on the racks. February promises to be a record breaker for cloak business. Have you been in yet?
